**Sub-** Your Marriage with my client Mrs. \_\_\_\_\_.

Sir,

Under instructions of my client, \_\_\_\_\_, having her present address at \_\_\_\_\_, I have to address you as under: -

1. My client and your marriage was an arranged marriage and the marriage proposal was initiated through the common family friends of my client and you. Thereafter, your respective families met each other and within a short span after your first meeting, the marriage between my client and you was solemnized.

2. The Petitioner is \_\_\_\_\_ by religion and you are \_\_\_\_\_ by religion. The marriage of my client and you was solemnized as per the provisions of the Special Marriage Act, 1954 (“**the said Act**”) on \_\_\_\_\_ at \_\_\_\_\_. At the time of the said marriage, my client was a spinster and you were a bachelor. The marriage of my client and you has

been duly registered with the Registrar of Marriages at \_\_\_\_\_ on \_\_\_\_\_.

3. My client is \_\_\_\_\_ by religion and you are \_\_\_\_\_ by religion and you both have professed the same religion at the time of your marriage.

4. After the marriage, my client and you started residing together at \_\_\_\_\_. After the marriage, you refused to travel for the honeymoon trip on the pretext that you were feeling unwell and that you had some professional commitments in that period.

5. Shortly after the marriage, my client started noticing unusual behaviour on your part. You used to wake up in the middle of the night, talk incorrigibly and try to get out of bed. When my client tapped you, you used to go back to sleep. These incidents were recurring. Thereafter, gradually, you also started hallucinating, not only in the night but even during the day. In fact, on many occasions, you used to return home from work in the afternoon and go to the bedroom and lock up yourselves for hours together. My client kept asking you about your health and the problems you were facing; however, you refused to discuss or share anything with my client. My client also tried to talk to your family. However, the only response that my client received was that you were dealing with some mental condition, for which you were being treated by good doctors and that you will be better in a few months.
